DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 19-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 19-31 are directed towards a "medium," but the body of the claims are apparently directed towards method steps. Correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,5,19,20,24,31-34 are rejected under 35 U.S.C. 102(b) as being fully met (to the extent understood) by Herberger et al (USPGP 2002/0148347).

Herberger et al discloses a system and method of BPM determination which comprises determining onsets from a music clip 215, estimating tempo 230, determining at least 3 beat candidates from the onsets (Figs. 6 and 7), determining, from beat candidates, segments that are synced to an actual beat phase (Fig. 7 – "unadjusted"), and rectifying segments of beat sequences that are out-of-sync with the actual beat phase (Fig. 7 – "adjusted").

Art Unit: 2837

Claims 2-4,6-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 21-23,25-30 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Laroche and Chen are further cited to show related teachings in the art.
